

The Road to Resiliency

Adversity discriminates against no one. We all face challenges and obstacles throughout our lives. We all have a story to tell. How can we stop the cycles of abuse and addictions now, rather than ignoring them and finding ourselves dealing with them in the future? How can we encourage, empower, and inspire people to make healthy choices, to embrace life-to love themselves and those around them? Our personal realities are only our perception of our experiences. Two people can share the exact same experience and yet have two completely different views on that experience. Abuse is often viewed in this manner. The Road to Resiliency presents a true story as told from Kyles perspective, sharing his memories of his experiences. In the aftermath of Kyles devastating personal journey, many figures in this story have denied the facts. Although convinced that a higher power was guiding him and telling him to forgive, Kyle found himself confused. Understanding that divergence between memories and truth provides the first step to stopping the cycle of abuse. The Road to Resiliency offers an opportunity to discover how to triumph over the damaging effects of adversity and abuse to make the past really past.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
