Ted McConnell, EVP Digital, Advertising Research Foundation; former head of Digital Marketing Innovation, Procter & Gamble How many of you have an effective listening strategy? To help guide you in the listening maze, identify new business opportunities, and select the right partners for the development and implementation of an effective listening strategy, this book is a must and an enjoyable read! Prof. Yoram (Jerry) Wind, The Lauder Professor, The Wharton School We started J&Ds with a single idea to make everything taste like bacon. All we needed now were customers. So we decided to go where the conversations were, and we've been listening ever since. We use social media to connect with our customers, promote our advancements in bacon-o-vation, and ask for their feedback on new product development. If you're an entrepreneur or run a small business, this book will give you lots of examples and terrific and practical ideas for creatively

listening to your customers and growing it.
