

Becoming Byzantine: Children and Childhood in Byzantium (Dumbarton Oaks Byzantine Symposia and Colloquia)

Despite increased interest over the last fifty years in childhood in Byzantium, the bibliography on this topic remains rather short and generalized. *Becoming Byzantine: Children and Childhood in Byzantium* presents detailed information about children's lives, and provides a basis for further study. This collection of eight articles drawn from a May 2006 Dumbarton Oaks symposium covers matters relevant to daily life such as the definition of children in Byzantine law, procreation, death, breastfeeding patterns, and material culture. Religious and political perspectives are also used to examine Byzantine views of the ideal child, and the abuse of children in monasteries. Many of these articles present the first comprehensive accounts of specific aspects of childhood in Byzantium.

So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
