

In Time of Plague: The History and Social Consequences of Lethal Epidemic Disease

Plague. The word itself is like a blow, connoting misery, miasma and death. Plague takes many forms: influenza, typhus, cholera, the Black Death, and, recently, AIDS. AIDS has reminded us that epidemic infectious disease is not simply a historical phenomenon or one limited like famine to remote continents and is a vivid and painful illustration of how epidemics take place at a number of levels biological event, social perception, collective response, and, finally, the individual, the existential and the moral. In Time of Plague examines the many ways in which catastrophic infectious and contagious diseases are both biologically and socially defined. In the politically charged age of AIDS, In Time of Plague analyzes what past epidemics tell us about this new, deadly virus: How has the definition of disease differed throughout history? How have new technologies and advances in epidemiology changed our perception and response to disease? When has quarantine been appropriate or effective? What norms should govern our thinking about responsibility, culpability, legality, and confidentiality? What does society owe the victims? What, in turn, are the responsibilities of the carrier population? Featuring essays by such distinguished scholars as Lewis Thomas, Joshua Lederberg, Dorothy Nelkin, Sander Gilman, Barbara Guttman Rosenkrantz, Baruch S. Blumberg, George Kateb, and David A. J. Richards, among others, from a wide range of disciplines, this work seeks to answer some of these pressing questions.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
