

Fistful of Lies (Whats his Passion?)

If you wanted to, how would you kill your lover? Freshly sacked from his professorship, Reuben could do without a month-long holiday on his boyfriend's private island. But he may as well enjoy the perks while they last. As soon as details of his dismissal surface, he's sure to wind up alone with his murder mystery fixation. Born with a silver spoon firmly between his teeth, Leif Claeson is no stranger to loss. He and twin sister Petra could lose their fathers' creaking multinational at any moment unless they fulfil his last wishes to the letter. Then again, Leif has always been something of a wild card. He'd rather vacation with his lover than worry about the future. When a stranger crashes their holiday, Leif sees only the potential for blissful debauchery. Ruben disagrees. Power and sex make for a potent cocktail and everyone in Leif's inner circle has a stake in what becomes of this Hellenic paradise. As Leif and Reuben struggle to reconcile their feelings with the strange happenings on the island, a chain of events is set in motion that could endanger their very lives.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
