

## When Fables Fall

A new secular world is gradually consigning Christianity to the level of myth and has rejected the authority of scripture that once stood harmoniously with science and society. Mankind is replacing God with its own clever fables that are destined to fall. This book turns the tables against Christianity's old and modern critics, and reasserts the veracity of Scripture in the face of this onslaught from the ranks of science, secularism and humanism. From ancient Greek thinkers to Darwin and Freud, the author brilliantly unmasks the weak science and philosophies that have been repeatedly peddled to usurp God from the new world we live in. The book will give assurance to those whose doubts are being played on by the fables taught by the World. It serves as a warning to the Church to not deviate from its core beliefs. With a clean style and robust content the author inspires the reader to reaffirm our belief that the Bible is absolute truth.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
