

## Astrology of the Boxers

In this book I examine some of the best known, and most controversial fighters of this and the last century. We'll look at their horoscopes and see how the stars and planets may have influenced them in their exclusive and brutal profession. It unquestionably takes a special person to go into the squared circle and physically fight another man for the hope of fame and fortune. We'll take a closer look at what the stars might indicate to us about them and their craft.
