

Imperial Nature: The World Bank and Struggles for Social Justice in the Age of Globalization (Yale Agrarian Studies Series)

Why is the World Bank so successful? How has it gained power even at moments in history when it seemed likely to fall? This pathbreaking book is the first close examination of the inner workings of the Bank, the foundations of its achievements, its propensity for intensifying the problems it intends to cure, and its remarkable ability to tame criticism and extend its own reach. Michael Goldman takes us inside World Bank headquarters in Washington, D.C., and then to Bank project sites around the globe. He explains how projects funded by the Bank really work and why community activists struggle against the World Bank and its brand of development. Goldman looks at recent ventures in areas such as the environment, human rights, and good governance and reveals how despite its poor track record the World Bank has acquired greater authority and global power than ever before. The book sheds new light on the World Bank's role in increasing global inequalities and considers why it has become the central target for anti-globalization movements worldwide. For anyone concerned about globalization and social justice, *Imperial Nature* is essential reading.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
