

## One Moment

Following on the heels of her must-read debut novel (New York Times best-selling author Jay Asher) *One Moment* is perfect for fans of Sara Zorr and Gayle Forman. Maggie Reynolds remembers hanging out at the gorge with her closest friends after a blowout party the night before. She remembers climbing the trail hand in hand with her perfect boyfriend, Joey. She remembers that last kiss, soft, lingering, and meant to reassure her. So why can't she remember what happened in the moment before they were supposed to dive? Why was she left cowering at the top of the cliff, while Joey floated in the water below--dead? As Maggie's memories return in snatches, nothing seems to make sense. Why was Joey acting so strangely at the party? Where did he go after taking her home? And if Joey was keeping these secrets, what else was he hiding?

So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
