

The Mad Atlas of Virginia King: The Full Color Version

Virginia King wrote an 8,448 page book about her hometown of Jacksonville, Florida, with a title nearly as long. She said her brother was dead. He said hed never heard of her. She called the wealthiest people in the city my little friends. THE MAD ATLAS OF VIRGINIA KING, which explores the life and psychology of this strange writer, is illustrated by her own photography, with meaningful musings by Hurley Winkler, and hand-drawn maps by Kiley Secrest.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
