

The Flappy Bird Business Model

Flappy Bird is the most popular game on the Internet these days. It is a simple one-button game in which you have to navigate our beloved bird past the obstacles. You do this by clicking your mouse repeatedly. Each time you click, the bird flies up. Don't make it fly too high or it will die. This means you have to tap at the right moments to make the bird go as far as you can! This addictive flash version is extremely close to the original Flappy Bird that was taken offline from the App Store by creator Dong Nguyen. It lets you play Flappy Bird online in your browser.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
