

## A+ Certification Kit, Second Edition

A+ is a certification program sponsored by the Computing Technology Industry Association (CompTIA) that certifies the competency of computer service technicians. CompTIA is an independent organization supported by major computer hardware and software vendors, distributors, resellers, and publications. To become A+ certified, a candidate must pass two test modules: the Core module, and either a DOS/Windows or Mac module. The two-part exam covers hardware and software technologies and is not related to any vendor-specific products.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
