

Concise Atlas of the World

From the defining boundaries of the Balkan states, to the icy terrain of Antarctica, this is the definitive reference atlas of the world today. Contains over 640 maps of every global region and is supported by detailed text, photographs and diagrams. An unsurpassed overview of the physical, political and demographic geography of the world with wide ranging appeal.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
