

Midnight: City of Shadow

As the Third Age came to a bloody close, one of the first victims of the brutal march of the Shadows armies across Eredane was the city of Highwall. Since the First Age, the city and its Scholars Academy stood as a beacon of hope and enlightenment in a darkening world. That shining beacon was shattered seemingly overnight as the fury of the Shadow in the North descended on the world. Now, a hundred years later, the city of Highwall lies in ruin. At the center of this desolation rises Theros Obsidia, a black tower of impossible size that was magicked from the earth and stone like a splinter drawn from flesh. This is the locus of Izradors power in Eredane and the fortress of his legates, the Order of Shadow. Huddled around the tower are the camps and garrisons of the Shadows hordes, along with the ruins and hovels of the citys survivors. Highwall has become a place of death and darkness, and only the bravest, most follhardy, or most desperate heroes dare to intrude into the heart of Shadow. City of Shadow offers detailed information on the ruined and occupied city of Highwall, a level-by-level description of Theros Obsidia complete with beautiful maps and illustrations, and in-depth information on the Order of Shadow. Requires the use of the Dungeons & Dragons Players Handbook, published by Wizards of the Coast, Inc. This product utilizes updated material from the v.3.5 revision.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
