

Entropy and Information Theory (Chinese Edition)

The contents of this book mainly include entropy, information source, channel capacity, rate distortion, data compression with coding theory and complexity theory, etc., introducing network information theory and hypothesis testing, bringing brand-new investment theory and study skills to the research of investment portfolio, from new perspective. The themes about information theory include entropy, data compression, channel capacity, rate distortion, etc. aiming to lay a solid foundation for readers theoretical study and application.
