

Shared Stories from Daughters of Alzheimers: Writing a Path to Peace

Shared Stories from Daughters of Alzheimers is a support group in print for those escorting a loved one on the Alzheimers journey. Nine women map the passage of a parent through Alzheimers disease, describing the evolution of their own emotional responses to the disease and the changes it effects in the patient and in her relationship with family members. The book invites the reader to take a first step in healing from Alzheimers ripple effect by beginning to journal about the experience. Use the stories here as tools to understand your own painful situation. Employ them to help you empower yourself, sort through your emotions and begin to heal. Seize upon that which makes sense to you and disregard that which seems irrelevant. Then, pick up your favorite pen and notebook and talk about what is going on in your journey with Alzheimers disease. We wish you well.-Persis Granger, Editor, Shared Stories from Daughters of Alzheimers An enthralling, ambitious and much-needed effort...most definitely the sort of work on Alzheimers that needs to get public notice.-Karla Morales, Peoples Medical Society

So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
