

Birds of Kangaroo Island

Regional bird field guides are few and far between in South Australia and Chris Baxters photographic guide to the birds of Kangaroo Island is the stand-out in this genre. This comprehensive account covers all 267 bird species recorded on the Island or offshore over the seas. It builds on the annotated list produced by the same author in 1989 and revised in 1995. The photographs provided by some of Australias most highly regarded photographers beautifully illustrate the detailed descriptions of the birds, their habits, habitats, breeding, status, abundance and distribution on the Island. In addition there are recommendations on where to look for each species, with cautions about not getting too close to endangered birds and their nests. Chris Baxter has called on a lifetime of bird watching on Kangaroo Island and observations from visitors and residents to present an attractive field guide that is a must for all birdwatchers from casual observers to serious ornithologists.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just to good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
