

The Science of Track & Field: An Anthology of 28 Graphs for Kids, Teens, & Curious Adults

In this book, readers learn about sports in an entirely new way, through graphs! This book contains 28 graphs of activities from track and field athletic events, including: Sprinting, Hurdles, Javelin, Discus, Shot Put, and Hammer. Graphs contain a selection of physics data including acceleration, velocity, trajectory, and force, as well as biophysics data such as joint angle motion/positions and the electrical activity of muscles (EMG).

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
