

Raising Brandon: Creating a Path to Independence for Your Adult Kid with Autism & Special Needs

Raising Brandon is quickly becoming a manual for parents who have children and adults with autism and special needs. The book informs, educates, and offers hope to a generation of parents struggling for answers. Whether you are just starting out with a newborn and you sense something is wrong, or you have an adult child with autism or special needs and you do not know what to do, Raising Brandon will guide you to the answers you have been looking for. Raising Brandon is filled with practical strategies, answers and solutions that will make life easier for you and your children, no matter their age or stage of development. It offers help, hope and inspiration to parents who do not know where to turn. You will be provided with the proven tools to help you work with your children's limitations. Rather than just thinking about what to do, now you can make positive results a reality. Raising Brandon follows Starr's life from the birth of her younger son, Brandon, through his diagnosis of autism, untreatable epilepsy, and severe learning disorders. Her goal was to help him live his dream and become an independent adult. When most people hear the word autism, they associate it with a child, says Starr. But like Brandon, now thirty-six, our children grow up, and we want them to not only survive in the world, but to live well. As parents, we have much to learn about ourselves in the process. Intended for parents of special needs children as well as care providers, the book's chapters tell a particular story and reveal what the author has discovered. Where the book really shines is where Starr describes in detail how she created innovative ways to empower Brandon when professionals said independence would be impossible for him to achieve. She had to dig deep within, to change and empower herself first in order to help her son succeed. Raising Brandon not only guides parents on how to cope but also how

to become a more conscious and evolved human being in the process. Being conscious is the secret to success, says Starr. I would have never thought that by helping my son succeed that I would be helping myself at the same time. Brandon has achieved what the professionals believed to be impossible. He has been living in his own apartment, enjoying his independence, for the past twelve years. Although living alone may not be an option for every child, helping ones child to live the best life possible is every parents dream. There are thousands of children being diagnosed with autism every day, and those children will grow up. We need to have the resources in place to help them, and as parents, we need to know what to do, adds Starr. There are areas in the book where Starr addresses the common pitfalls, such as shame, secrecy, and denial. She describes how damaging these can be personally, as well as on the marriage. Further, she provides proven tools for releasing yourself and breaking free to create a better life for you and your family. Another message close to Starrs heart is made loud and clear throughout the book. Although her son was diagnosed with epilepsy and learning disorders at the age of nine, it was not until he turned thirty-two that Starr discovered Brandon had a form of autism called Asperger Syndrome. She stresses how early intervention is key, but Starr knows firsthand and shares, It is never too late to get help for your children There is Hope. Brandon is living proof that anything is possible!

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just to good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
