

Playboys in Paradise: Masculinity, Youth and Leisure-Style in Modern America

Post-war America was an exciting time. It was an age characterized by backyard barbecues and beach parties, mai-tai cocktails and Ford Mustangs, high school hops, Hawaiian shirts and Hugh Hefners Playboy empire. This book charts middle-class Americas move towards an ethos of conspicuous consumption and sexual license during the fifties and sixties. Focusing on two of the periods most visible icons--the swinging bachelor and the vibrant teenager--this book looks at the interconnected changes that took place for American youth culture and masculinity as consumption and leisure established themselves as the dominant features of middle-class life. The author draws on a wide variety of popular examples--mens magazines, fashion and style, books, film and music--to argue that the bachelor and the teenager were complementary and interrelated stereotypes that shaped Americas youth. Magazines such as Esquire and Playboy, and bands like the Beach Boys, framed and shaped a new meaning of the young American male that contrasted sharply with previous values of sobriety and moderation. This book discusses the images and icons that shaped masculinity in particular. By focusing on the changes both in masculine identity and in the form and representation of youth culture, American life is looked at from a fresh and innovative perspective.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
