

## Dreaming: Anthropological and Psychological Interpretations (School for Advanced Research Advanced Seminar Series)

The ten contributors to this book—anthropologists and psychologists—explore the ways in which dreams are remembered, recounted, shared (or not shared), interpreted, and used by people from New Guinea to the Andes. The authors take a major step toward moving the study of dreaming from the margins to the mainstream of anthropological thought.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
