

Whats a Cook to Do?: An Illustrated Guide to 484 Essential Tips, Techniques, and Tricks

From Americas favorite cooking teacher, multiple award-winner James Peterson, an invaluable reference handbook. Culinary students everywhere rely on the comprehensive and authoritative cookbooks published by chef, instructor, and award-winning author Jim Peterson. And now, for the first time, this guru-to-the-professionals turns his prodigious knowledge into a practical, chockablock, quick-reference, A-to-Z answer book for the rest of us. Look elsewhere for how to bone skate or trim out a saddle of lamb, how to saute sweetbreads or flambe dessert. Look here instead for how to zest a lemon, make the perfect hamburger, bread a chicken breast, make (truly hot) coffee in a French press, make magic with a Microplane. Its all here: how to season a castiron pan, bake a perfect pie, keep shells from sticking to hardcooked eggs. How to carve a turkey, roast a chicken, and chop, slice, beat, broil, braise, or boil any ingredient youre likely to encounter. Information on seasoning, saucing, and determining doneness (by internal temperatures, timings, touch, and sight) guarantee that youve eaten your last bland and overcooked meal. Here are 500 invaluable techniques with nearly as many color photographs, bundled into a handy, accessible format.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
