

Parents Guide to Pre-school Education (Parents Guides)

This parents guide is part of an early-learning series which includes six workbooks for children aged from three to five years. The workbooks aim to help children to develop and practise basic skills in an enjoyable way, and the parents guide provides information about issues in early-years education, as well as help in monitoring childrens progress and preparing them for the first term at school. There is progression of learning throughout each workbook, and through the series as a whole.
