

Communications For Survival And Self-reliance

Have you ever stopped to consider how you would communicate with loved ones in the event of a widespread infrastructure failure, natural disaster or man-made atrocity? In an increasingly uncertain world, the ability to have 100-percent control over your communications is crucial to maintaining personal security. In this book, communications specialist Michael Chesbro offers expert in-depth guidance on integrating a broad spectrum of independent, alternative communications methods - from the various licensed and unlicensed radio services to digital modes - into a highly effective communications network for survival and self-reliance. He also examines standard operating procedures, options for establishing both local and international contacts, different types of equipment, methods of sending messages securely and more.

Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
