

How to Find the Best Foreign Realtors and Make Your Offer of Cooperation in Sale Irresistible to Them (E-Series: How to Beat Your Competition Selling Real Estate to Foreign Buyers Book 1)

This is the first book in the E-Series: How to Beat Your Competition Selling Real Estate to Foreign Buyers. The E-Series will eventually summarize All-You-Have-to-Know to successfully market and sell real estate to international buyers. Each e-book will focus on a particular aspect of marketing and selling properties to international buyers. The trend of buying real estate in countries other than ones own exists in the modern world, nobody is capable to discontinue it, and anybody can use it to their advantage as a private seller of a property, real estate agent or developer and expand their buyers pool to include the foreign buyers to advance the success in real estate sales. Foreigners spend billions on buying international properties each year, and it is quite logical that nearly every real estate seller, developer and realtor in the world wants to offer their properties for sale to the lucrative foreign buyers markets. There are two major approaches to getting an international real estate buyer for your property: Your own advertising directly to the general buying public in a particular foreign country (you pay all the advertising costs up front, but no commission on sale) or through relators in that country who would accept your offer of cooperation and refer you a buyer found by their own means (no advertising costs, but you pay the sales commission). Both methods of real estate international marketing are not conflicting and can be used separately or simultaneously - the choice is yours. This e-book How to Find the Best Foreign Realtors and Make Your Offer of Cooperation in Sale Irresistible to Them is about the option of selling the properties through the foreign realtors and contains a complete practical guide to finding the best for your goals foreign realtors (even if you do not know their language!) and writing your proposal letter to the foreign realtors that will get their immediate and positive

attention and put your property on their radar before any other. The e-book covers the following important for your success issues: * How to find foreign realtors who are the best to sell your property; * How to make them want your business; * How to write your offer of cooperation in sales; * What to include and what not; * What mistakes are common and how not to make them; * How to address the hot issue of the real estate commission; * All other business necessities. The next book in the E-Series will be about the best cost-effective ways of direct advertising to the general buying public in a foreign country where you want to find a buyer for you property. The E-Series: How to Beat Your Competition Selling Real Estate to Foreign Buyers is based on the authors personal experience with marketing international real estate from all over the world to foreign Russian-speaking buyers and her extensive research in the other foreign buyers markets. The author, Olga Kellen, is an international real estate marketing consultant and English-Russian translator, the American Association of Translators (ATA) member; she can be reached with your comments about the E-Series through her professional website.
