

# How to Win The Hispanic Gold Rush™: Critical Cultural, Demographic, Marketing, and Motivational Factors

The California Gold Rush of the 1850s produced great financial rewards for those visionaries who anticipated the needs of a promising market. We are currently at the beginning of another great business phenomenon: The Hispanic Gold Rush of the 21st century. Organizations have made the penetration of the Hispanic market a key component of their strategic growth plans, and are certainly trying to do all the right things to leverage the potential that the Hispanic market offers. However, in spite of their massive investments of effort and resources, many organizations have experienced only limited success. *How to Win The Hispanic Gold Rush* explains how to succeed in marketing to Hispanics, presents key demographic data and cultural factors about the Hispanic population, and provides practical tools to help organizations better direct their resources. In addition, it describes four steps that can be implemented to significantly increase the penetration of this important ethnic market. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
