

Exotic Birds: Color by Numbers (Hobbies and Craft)

Dreaming and relaxing, with stunning birds surrounded by tropical plants and wildlife, this beautiful new book will give you many hours of pleasure, and calm. With a range of challenging and more restful designs Exotic Birds takes you on an enjoyable journey where the satisfaction of creating stunning artworks is mixed with rediscovering the joy of coloring by numbers. You can use a wide variety of pens: from gel and pencil, to pigment and crayons, from ballpoint and rollerball to highlighters, although its best to avoid the heavy felt pens. Each page has a colour chart to follow and is perforated near the spine of the book, so you can tear out and frame, or simply place your wonderful creation on the walls of your home, perhaps even send them as a gift to your loved ones. You'll have to make a choice about which design to make, if you want to tear it out, but with nearly 120 to choose from there's more than enough to help you make your decision. Each page is perforated, and ready for you to frame. Bring the Ink to life!

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
