

Developers Guide to Reporting Services 2005

This book is designed as an introduction for anyone who wants to learn how to design, deploy and integrate reports using SQL Server 2005 Reporting Services, the .NET Framework and either ASP.NET Web Forms or .NET Windows Forms applications. SQL Server 2005 Reporting Services is an excellent platform for meeting a wide variety of reporting needs. In this book you will learn:

- How to install & configure Reporting Services
- How to create, design and deploy reports
- How to design reports effectively
- How to use report server URL access
- How to use the Web Forms report viewer
- How to use the Windows Forms report viewer
- How to use the Reporting Services web service
- How to administer Reporting Services

If you started from scratch, it would take you over 30 hours of work to develop the classes that are included with this book! Join John and Paul as they teach you what you need to know to create reports using SQL Reporting Services 2005.
