

Space: A Memoir

A memoir in the tradition of Frank Conroy's *STOP TIME* and Tobias Wolff's *THIS BOYS LIFE*, *SPACE* is about growing up when America was on the brink of the big changes coming by way of Apollo 11, *THE FEMININE MYSTIQUE*, and the Vietnam War. Never has the space program been so charmingly brought down to earth than by this utterly beguiling girl . . . I was fascinated, enchanted, edified, and moved.--Gish Jen, author of *TYPICAL AMERICAN*; The beauty of *SPACE* is that Kercheval engages all the senses with layered detail.--Swing; An incandescent girlhood memoir . . . so lyrical and poignant are the events it chronicles, it is hard to believe that it wasn't all by design.--Booklist, starred.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
