

Why Tease? (Problem Solvers)

This series uses child-friendly stories and illustrations to show how conflict situations can be resolved. Each book contains two stories set in a primary school which can encourage children to relate to their everyday experiences. The range of behavior that needs resolving is not simply solved by adult intervention, often the children are able to sort the problem out themselves. At the end of each book there is a page asking children to think about the situations that arose in the stories and to think about how they would behave if they were one of the characters.
