

Health Sciences Literature Review Made Easy: The Matrix Method

This resource will help students better understand scientific literature by instilling the essential skills (via the matrix method) needed to critically evaluate article findings. The fundamental principles of searching, organizing, reviewing, and synthesizing are covered at the most basic level. It will help students to: Conduct an efficient and thorough search of the literature using electronic databases...Learn specific methods for organizing journal articles and other source documents for quick and easy access... Discover how to choose specific topics to systematically abstract the research articles ...Create and use their own abstracts of the research articles to write a synthesis of the literature. Visual examples and a single case study are woven throughout the text. It is constructed in an easy-to-read and highly practical format

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
