

Special Needs Families in the Military: A Resource Guide (Military Life)

The saying it takes a village to raise a child is especially true for families with special needs children. It takes an army of therapists, doctors, nurses, counselors, and educators. Special needs families in the military often find the task even more daunting, compounded by the unique circumstances of military life today. Even though the challenges are often greater, there are many helpful resources for families in the military who are raising a special needs child. In *Special Needs Families in the Military: A Resource Guide*, authors Janelle Hill and Don Philpott provide advice on the many issues that arise, including diagnoses, financial support, education, medical care, case management, insurance, advocacy, and coping with the accompanying mental and emotional trials. The book covers the basic challenges which all special needs families must face, and also pays special attention to those resources, programs, and aids available to special needs families in the military, where the added stresses of military life often make things seem overwhelming. This book guides special needs families through all the procedures and protocol they must face, and offers helpful tips for setbacks and unexpected challenges that may arise. It is essential reading for military families with special needs children and those who work with them.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
