

42 Rules for B2B Social Media Marketing: Learn Proven Strategies and Field-Tested Tactics through Real World Success Stories

Social media is changing the way people think about marketing. Its much more than pushing out the same content through new channels. The biggest shift is that communications is now bi-directional; you can (and must) listen to your customers rather than just talking to (at) them. But, with so many social media channels and new rules of engagement, even seasoned marketing professionals sometimes get stuck on where to begin. This book was created for business-to-business (B2B) marketing professionals who need to move quickly towards a marketing mix that now includes social media. While there are many books on social media marketing, there are few that focus on B2B. While B2B marketing is still the commonly used term to differentiate it from business-to-consumer (B2C) marketing, social media -- and the future of marketing -- is about people-to-people (P2P) communications. In this book, social media practitioners Michael Procopio, Peter Spielvogel, and Natascha Thomson share their combined 20 years of hands-on social media experience explaining how you can best leverage social media for your business. Learn how to understand market requirements, engage in conversations with your customers, build awareness for your solutions, and generate targeted leads with social media. Using a combination of proven best practices and real-world stories, the authors describe how to maximize your return on investment with Facebook, YouTube, LinkedIn, and other popular online channels. The focus is on how to engage more effectively with your customers and prospects using social media. The phased approach used in the book enables you to make steady progress as you move into social media without getting overwhelmed by too many options. Instead, the book makes it easy to integrate what you learn into your existing marketing strategy and day-to-day

execution, step by step, while avoiding classic mistakes like over-committing resources. Providing small and well-defined chunks, this book will help you define what is right for your business, as taking on too much has caused many failures. If you want to remain relevant as a marketing professional and avoid common mistakes, read this book. The authors are donating all their royalties to the Khan Academy, an organization committed to providing a free world-class education to anyone anywhere. <http://www.khanacademy.org/>

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
