

Networks in the Russian Market Economy

If Russia has become a market economy, how does it function on a grassroots level? In addition to market mechanisms, what kinds of social and moral principles are at work in the new Russian economy? Is the Soviet legacy still present in post-Soviet business practices? This book searches for answers to these questions, by investigating the networking practices of the Russian software industry. It examines what kinds of resources are transmitted through the personal networks of Russian IT directors and managers, and which mechanisms govern this transmission. The volume opens a rarely available grassroots-level view into the business practices of the new Russian knowledge-based economy. This book is essential reading for all interested in Russian society, culture and economy. NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
